

TELEFUNKEN

	<p>Battery cartridge für HR1 und FA1</p>	<p>Battery for Telefunken Defibrillator HR1 / FA1. Standby time 3 years, non-rechargeable alkaline cells (12 V DC/10,0 Ah), capacity > 200 Shocks, up to 20 hrs monitoring. Use, Storage and transport: between 0° C – +50° C</p>
	<p>1 Set Electrode pads for HR1 and FA1 Telefunken Defibrillator for adults and childs > 8 years > 25 Kg</p>	<p>1 Set Electrode pads Electrode pad area 125 cm² (each electrode pad), cable length 130 cm, Standby time >2.5 years from manufacturing date (pediatric electrode pads also available, optionally)</p>
	<p>1 Set Pediatric-electrode pads for HR1 and FA1 TELEFUNKEN Defibrillator, for peditrics < 8 Y. < 25 Kg.</p>	<p>1 Set Pediatric electrode pads Pediatric electrode pads, for peditrics < 8 Y. < 25 Kg, Standby time >2.5 years from manufacturing date.</p>

	<p>Battery + Elektrode pad set for HR1 and FA1 (Adults and childs >8 J. >25 Kg)</p>	<p>Battery- and Elektrode pad set for Telefunken Defibrillator HR1 and FA1 for adults and childs >8 J. >25Kg, standby time >2.5 years, non-rechargeable alkaline cells (12 V DC/10,0 Ah), capacity > 200 Shocks, up to 20 hrs monitoring, standby time 3 years, storage and transport: between 0° C – +50° C</p>
	<p>10er Set Electrode pads for HR1 and FA1 Telefunken Defibrillator for adults and childs > 8 years > 25 Kg</p>	<p>10er Set Electrode pads. Electrode pad area 125 cm² (each electrode pad), cable length 130 cm, Standby time >2.5 years from manufacturing date (pediatric electrode pads also available, optionally)</p>
	<p>3er Set Electrode pads for AED trainer</p>	<p>3er Set Trainer electrode pads, electrode pad area 125 cm² (each electrode pad), cable length 130 cm, standby time >2.5 years from manufacturing date</p>
	<p>Defibrillator wall cabinet with viewing window (plastic) and rotating door latch, Metal (white), powder-coated</p>	<p>Metal wall bracket for Telefunken Defibrillators HR1 and FA1 by metal, white with mounting material</p>

	<p>Design - acrylic glass wall cabinet for defibrillators</p>	<p>Large design - acrylic glass wall cabinet, reinforced material, for defibrillators, with "Defi" label, solid hinges, front door with magnetic catch Easy wall mounting, mounting material included Dimensions: W360 x H410 x D165 mm (outside) / W340 x H390 x D150 mm (inside). Weight: 2 kg, w/o defibrillator</p>
	<p>Design - acrylic glass wall cabinet for defibrillators with alarm 105dB</p>	<p>Large design - acrylic glass wall cabinet, reinforced material, for defibrillators, with alarm (105dB), with "Defi" label, solid hinges, front door with magnetic catch Easy wall mounting, mounting material included Dimensions: W360 x H410 x D165 mm (outside) / W340 x H390 x D150 mm (inside). Weight: 2 kg, w/o defibrillator</p>
	<p>Defibrillator wall cabinet with viewing window (plastic), premium quality, Metal (white - further colors possible, optionally), powder-coated</p>	<p>Metal wall cabinet for defibrillators, Premium quality closed cabinet for indoor use, white (RAL 9010), powder-coated, with rotating door latch, door with viewing window, lockable and sealable with leads, with "Defibrillator" label, Made in Germany, TÜV-approved and GS-certified, 3 years warranty, with mounting material for wall mounting. Dimensions: W 400 x H 400 x D 220 mm. Weight: ca. 5kg Possible colors (optionally): RAL 1018, 2004, 3000, 3003, 5010, 5012, 5015, 6011, 7016, 7035, 9005(w/o defibrillator)</p>
	<p>Defibrillator wall cabinet with alarm, viewing window (plastic), premium quality, Metal (white - further colors possible, optionally), powder-coated</p>	<p>Metal wall cabinet with alarm for defibrillators, Premium quality closed cabinet for indoor use, with siren (105dB) and 9V battery, white (RAL 9010), powder-coated, with rotating door latch, door with viewing window, lockable and sealable with leads, with "Defibrillator" label, Made in Germany, TÜV-approved and GS-certified, 3 years warranty, with mounting material for wall mounting. Dimensions: W 400 x H 400 x D 220 mm. Weight: ca. 5kg Possible colors (optionally): RAL 1018, 2004, 3000, 3003, 5010, 5012, 5015, 6011, 7016, 7035, 9005(w/o defibrillator)</p>

	<p>Defibrillator wall cabinet with alarm and warning light, viewing window (plastic), premium quality, Metal (red - further colors possible, optionally), powder-coated</p>	<p>Metal wall cabinet with alarm and warning light-lamp for defibrillators, Premium quality closed cabinet for indoor use, with siren (105dB) and 9V battery, warning light-lamp, red (RAL 3000), powder-coated, with rotating door latch, door with viewing window, lockable and sealable with leads, with "Defibrillator" label, Made in Germany, TÜV-approved and GS-certified, 3 years warranty, with mounting material for wall mounting. Dimensions: W 400 x H 400 x D 220 mm. Weight: ca. 5kg Possible colors (optionally): RAL 9010, 1018, 2004, 3003, 5010, 5012, 5015, 6011, 7016, 7035, 9005(w/o defibrillator)</p>
	<p>Defibrillator wall cabinet with heating and ventilation, labeling, for outdoor use</p>	<p>Wall cabinet for defibrillators at outdoor area AED protection- and safety-box for outdoor use, with heating and ventilation, with audible alarm, for public authority, companies, transport companies etc.easiest wall mounting, audible alarm function (105dB), transparent Polycarbonate cover (UV protected), ABS plastic frame in green acc. to ISO 3864, with "AED" label. Dimensions: 388 x 423 x 201 mm, Weight: 3,5 kg. (w/o defibrillator)</p>
	<p>Defibrillator wall cabinet with mobile emergency call, labeling and emergency instruction, for indoor use</p>	<p>Wall cabinet with GSM emergency call module for defibrillators at indoor area AED protection- and safety-box for indoor use, with GSM module (GSM card required!), with audible alarm, for public authority, companies, transport companies etc.easiest wall mounting, audible alarm function (105dB), transparent Polycarbonate cover (UV protected), ABS plastic frame in green acc. to ISO 3864, with "AED" label. Dimensions: 388 x 423 x 201 mm, Weight: 3,5 kg. (w/o defibrillator)</p>

	<p>Defibrillator wall cabinet with mobile emergency call, labeling and emergency instruction, heating and ventilation, for indoor and outdoor use</p>	<p>Wall cabinet with GSM emergency call module for defibrillators at indoor and outdoor area AED protection- and safety-box for outdoor use, with heating and ventilation, with GSM module (GSM card required!), with audible alarm, for public authority, companies, transport companies etc.easiest wall mounting, audible alarm function (105dB), transparent Polycarbonate cover (UV protected), ABS plastic frame in green acc. to ISO 3864, with "AED" label. Dimensions: 388 x 423 x 201 mm, Weight: 3,5 kg. (w/o defibrillator)</p>
	<p>AED - emergency kit</p>	<p>AED- emergency kit, ideal to prepare your AED for emergency case!Content: Rescue breathing cloth, scissors (for cloths), gloves and shaver.</p>
	<p>CPR training manikin for first aid training</p>	<p>CPR training manikin - complete set!</p>
	<p>Rescue brathing mask</p>	<p>Rescue breathing mask</p>

	<p>AED - label</p>	<p>AED label, self adhesive For indoor and outdoor, different sizes available.</p>
	<p>AED - location marker, noctilucent acc to BGV 8A</p>	<p>AED - location marker, noctilucent acc to BGV 8A For indoor and outdoor.</p>
